

Auro Electronics (India) Pvt. Ltd.

<http://www.auroelectronics.com/>

We are a trusted and reliable organization actively engrossed in manufacturing, supplying and trading a broad array of Digital Equipment. These equipment are highly demanded by the clients for their accurate measurements.

About Us

Recognized for the manufacturing, supplying and trading high quality assortment of Digital Equipments, we "**Auro Electronics (India) Pvt. Ltd.**" started our operation in the year of **1991**. Under this commendable array of products we are offering Weather and Environmental Monitoring, Soil Moisture and Quality Measurement and Integrated Pest Management Tools. These products are manufactured by using supreme quality basic inputs that are given by the certified suppliers of the industry. Our professionals manufactured these products in total adherence with the laid industry standards. We are offering these products in various configurations to choose from.

We are a quality oriented organization offering optimum quality products for our patrons since our inception in this domain. We have hired a group of well qualified and experienced professionals to manage our business operations. We have developed a highly advanced and well equipped testing unit at our premise. With the help of this quality testing unit, we check all the manufactured product against the various quality standards. Owing to the sincerity of our highly skilled and talented professionals, we are able to deliver the offered array within the assured period of time.

Under the valuable supervision of our mentor **Mr. Uma Kant**, we are able to achieve this commendable position in the industry. Owing to his years of industry experience and deep knowledge of this domain, we are...
